for good air flow

Rekindle flames without the MESS!

This luxurious fireplace accessory makes a great addition to anyone's household. Not only does it restore a dwindling fire, but it also adds charm and elegance to any mantle or hearth. There is no need to dirty yourself or your home, kneeling by the fire to get it restarted. The Franklin Poker allows you to stand at your fireplace and direct air right to the waning coals, giving them back a fresh burst of life. You can then use the poker's clever shark-fin tip to position new logs, moving even the largest of timbers with ease. When the cold of the winter begins to overwhelm the flames, you can trust the Franklin Poker to keep the home fires burning.
